A WORD FROM THE CEO

Another impactful and, in many ways, challenging year is behind us—one that tested our resilience, adaptability, and entrepreneurial spirit. Despite uncertainties and unexpected changes in the external environment, Junior Achievement Macedonia remained focused on its mission and continued to deliver meaningful learning experiences for young people across the country.

This year brought a significant shift in our operational context, following the suspension of activities of one of our major donors, USAID. We are deeply grateful for the partnerships built over the years and proud of the way our organization responded to this moment. With the immediate support and strategic guidance of JA Europe, we got support from Ferd & Norwegian Properties and managed to fulfill the commitments and activities we had promised.

At the same time, our cooperation with European Union–funded projects enabled us to accelerate activities focused on preparing young people for the digital and green transition in North Macedonia. Through these initiatives, we strengthened STEM skills, digital competencies, and talent development, ensuring that students are better equipped for emerging professions and the evolving labour market.

In line with these priorities, Junior Achievement Macedonia invested additional efforts in developing new manuals, training curricula, and educational resources to support both teachers and students. These tools are designed to enhance digital learning outcomes, promote sustainability, and respond to the growing demand for green skills and knowledge essential for sustainable development.

None of this would be possible without our dedicated teachers, motivated students, trusted partners, and committed team. Their collaboration, openness to innovation, and belief in the power of education continue to drive our impact and expand the JA family year after year.

As the world continues to change rapidly, our responsibility grows as well. Junior Achievement Macedonia remains committed to inspiring, educating, and empowering young people to turn challenges into opportunities and ideas into action. Together, we will continue to build pathways to success and a more resilient, inclusive, and sustainable future.

Thank you for being part of this journey.

Thank you.

Ljupka Panchevska
CEO Junior Achievement Macedonia

ABOUT US

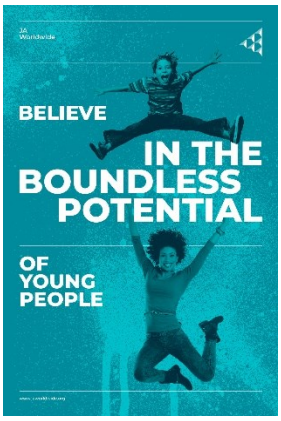

Junior Achievement Macedonia (JAM) was founded in October 2017, as one of 123 Members of Junior Achievement Worldwide (www.jaworldwide.org), which encourages and helps young people for future jobs. Through trainings, preparation for financial literacy, work readiness and entrepreneurship, creates employment pathways and creates new jobs. JA Macedonia is part of the Regional Operational Center in Europe – JA Europe http://www.jaeurope.org/.

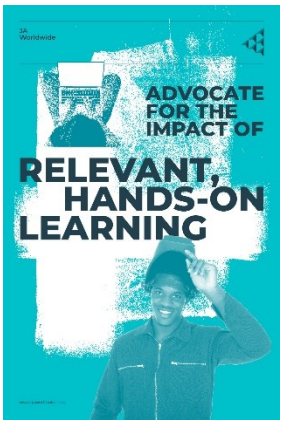

Our Mission

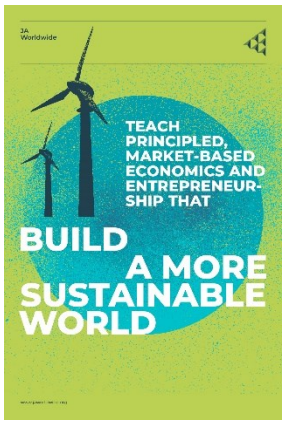

JA inspires and prepares young people to succeed in a global economy.

Our Values

Six values reflect the culture of JA and raise the voice for our interactions within and outside of the JA network.

JAM Board of Directors

Gjorgi Kushevski
Chair of the Board

Bastri Bajrami
Board member

Vlado Cekikj
Board member

Vlado Dimovski
Board member

Saso Simjanovski
Board member

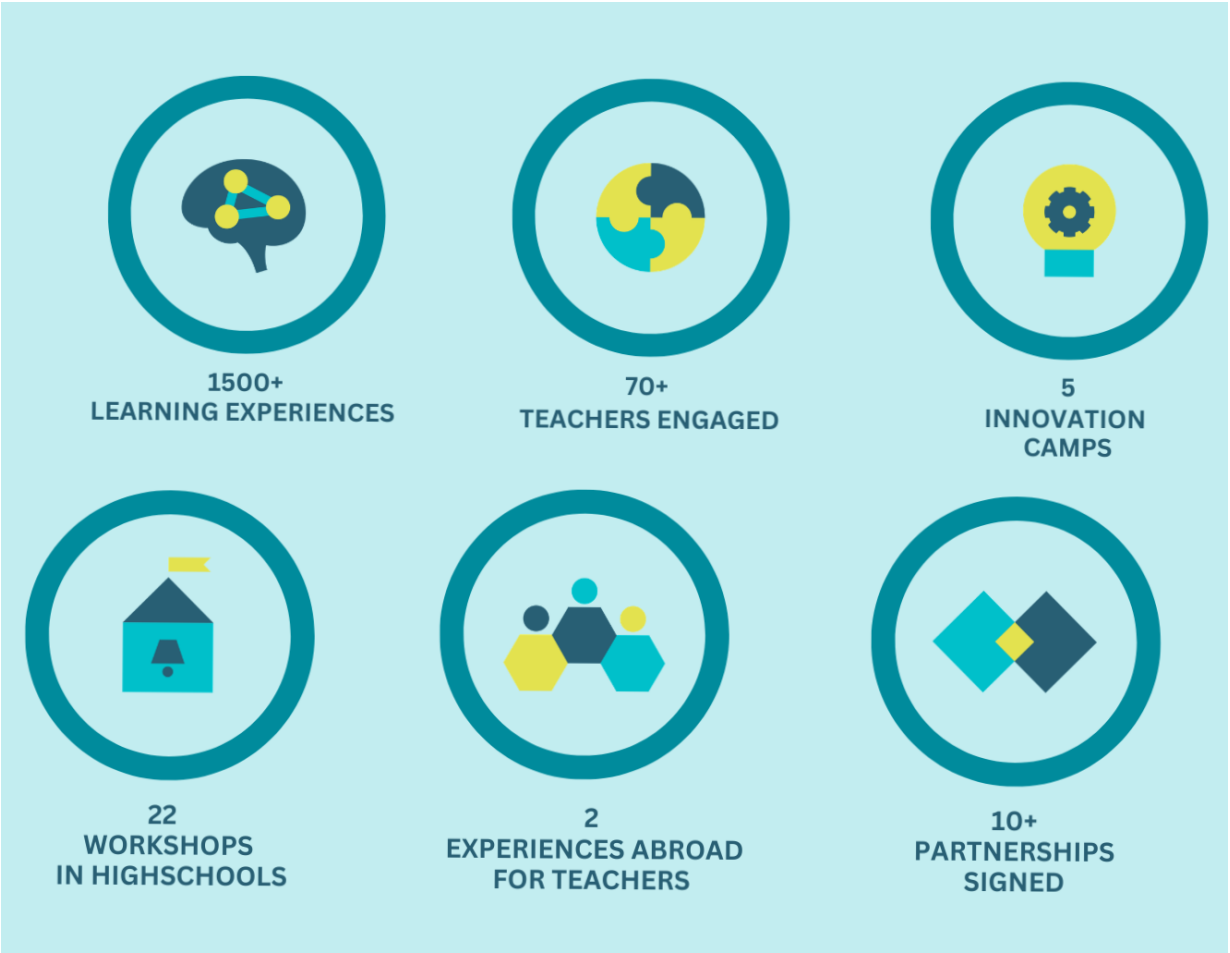

Fidan Stoimenov
Board member

During 2025, a total of four meetings of the Board of Directors were held. The meetings took place in Skopje, on April 2, June 4, September 24, and December 17, 2025.

During these meetings, the members of the Board of Directors discussed and adopted decisions related to the organization's ongoing operations, strategic development priorities, financial management, as well as the planning and implementation of program activities.

All meetings were conducted in accordance with the organization's Statute and internal regulations, ensuring active participation of the members and timely decision-making in support of the organization's continued effective functioning.

JAM Macedonia in 2025 through numbers

TESTEMONIALS

Radmila Andovska, Teacher and Mentor:

"As a mentor, I witness students grow every year — from shy teenagers into young leaders with confidence and vision. Junior Achievement doesn't just teach them about economics and business; it teaches them about life — responsibility, teamwork, and perseverance. This program opens new horizons and encourages critical and creative thinking. The best part is seeing their ideas come to life and gain purpose."

Junior Achievement Macedonia
from North Macedonia

Member of JA Worldwide

Ivan Jangelov, JAM Alumni member:

"Being part of Junior Achievement means learning how to dream with a plan. It teaches students not only how to start a business, but how to build character, resilience, and empathy. It's about creating leaders who understand that true innovation begins with social responsibility."

Bojana Radiceska, Student:

"Junior Achievement showed me that every young person has a voice worth hearing. This experience taught me to speak with confidence, communicate with purpose, and believe in my own story. Thanks to the program, I learned how to present ideas with clarity and emotion. It gave me the courage to stand in front of an audience and share my vision with the world."

Marko Bogev, Student:

"Through this program, I learned the true meaning of financial responsibility, planning, and collaboration. It's not just a school project — it's real-life preparation. Today I know how to manage resources, set goals, and achieve them step by step. Junior Achievement helped me understand the importance of financial literacy from an early age."

Iva Petrovska, Student:

"Junior Achievement Macedonia helped me discover my creativity and turn it into something meaningful. Today I believe I can lead a team, present an idea, and make a real difference in my community. The program taught me that leadership isn't about being the loudest voice, but about inspiring others to act. It's an experience I'll carry with me throughout my career and life."

Maksim Chukniev, Student:

"JA taught me that technology can serve society. I learned how to use innovation to solve real problems — and that gave me direction for my future. The program helped me see the connection between technology, education, and social responsibility. Now I believe that every innovation has value only when it benefits the community."

Angela Anastasova, Student:

"Through Junior Achievement, I learned that entrepreneurship isn't just for adults — it's a mindset. Every problem can become an opportunity if you have an idea and the courage to act on it. This experience opened the door to the world of innovation and collaboration. I realized that success isn't about perfection but about persistence and believing in yourself."

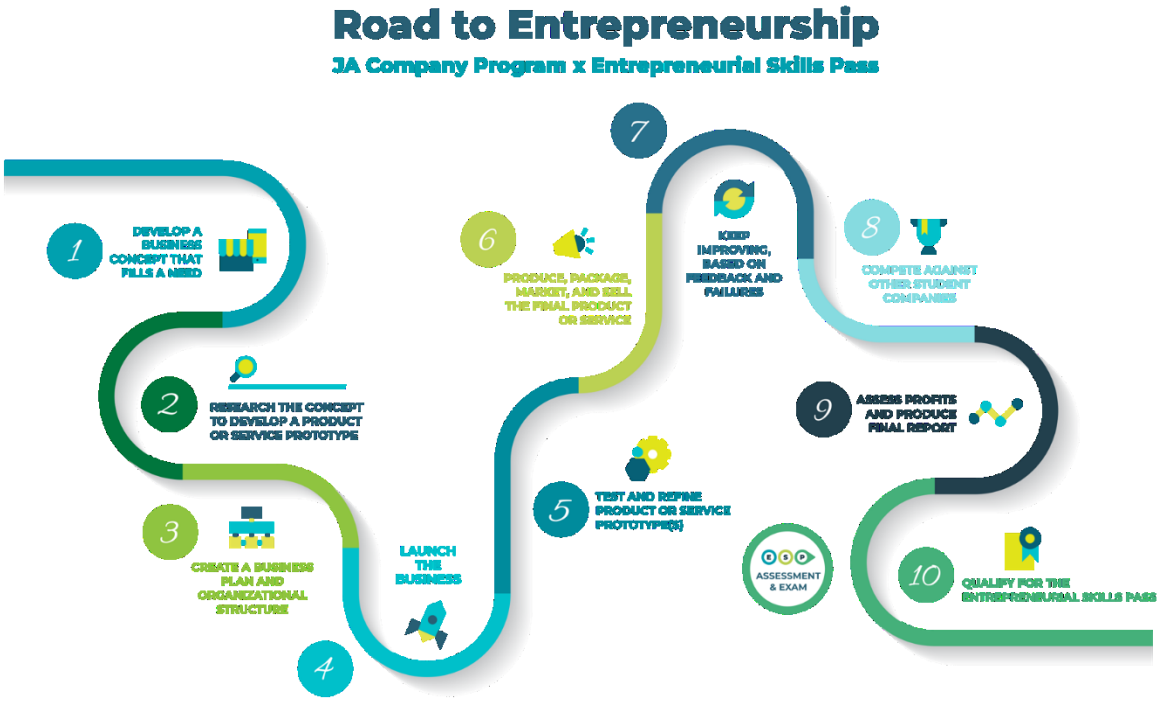

Stojan Debarliev, Business Partner:

"Partnering with Junior Achievement has been an inspiring journey. Their dedication to empowering young people with entrepreneurial, financial, and work-readiness skills creates real and lasting impact. The professionalism, innovation, and passion of their team make them an exceptional partner to collaborate with. We truly value this cooperation and look forward to continuing to build opportunities for the next generation together."

CORE PROGRAMS

JA COMPANY PROGRAM

JA Company Program provides basic economic education for high school students by allowing them to organize and operate an actual business. Students not only learn how businesses function, they also learn about the structure of one enterprise system and the benefits it provides.

JA Company Program offers students aged 15-19 the opportunity to learn how to move a business idea from concept to reality. The program provides teachers with a series of learning-by-doing business, economics and entrepreneurship activities, a great way to help students succeed in a global economy.

In the school year 2024/2025, the Company program involved 80 companies, including 650 students from 40 high schools.

THE ENTREPRENEURIAL SKILLS PASS (ESP)

The Entrepreneurial Skills Pass (ESP) is an international certification of skills and experiences for businesses eager to hire students with an entrepreneurial mindset.

This is the first JA global micro credential—currently used in more than 50 countries—**certifying that students have had a real entrepreneurship experience through the JA Company Program.**

In the school year 2024/2025, 94 students got certificated.

TEACHER TRAININGS/ CONFERENCES

Teachers are most important in JA Macedonia's programs, as they are the link to students and we are dedicated to their constant professional development, providing numerous learning experiences. Throughout the year, teachers who are part of the JA Family are provided with opportunities to further develop their skills and partake in training on various topics related to the implementation of the Company programme, sustainability, green economy, social entrepreneurship etc.

In 2025 JA Macedonia organized 2 opportunities for teachers and engaged 74 teachers through their programs.

Annual Teacher Conference in Vrnjachka Banja, Serbia 12-14.10.2025

From October 12 to 14, Junior Achievement Serbia organized a national conference of teachers from secondary schools that implement entrepreneurial education programs and are part of the Junior Achievement network of student companies.

The goal of the conference is to strengthen the capacities of teachers and invest in their training so that they can transfer knowledge to their students. More than 180 teachers from 122 secondary schools from 70 municipalities in Serbia, as well as teachers from Macedonia and Montenegro, had the opportunity to exchange experiences with colleagues and enjoy various lectures during the three days of the conference.

The experiences and challenges that were the topic of the panel discussions were supported by motivational speeches from top lecturers, company managers in the field of innovation, psychology for dealing with young generations, artificial intelligence, e-commerce and skills for the future.

Teachers training – PMIEF -11 November 2025

A training on Project Cycle Management was organized for 21 teachers from 17 high schools involved in the Company Programme. The main goal was to strengthen their capacities to integrate project management concepts into teaching and to better support students in planning and implementing projects.

Through structured modules and practical exercises, participants gained knowledge in project planning, budgeting, monitoring, and evaluation. All teachers received certificates, and continued mentoring and support will ensure effective application of the acquired skills in their future work.

TEACHER OF THE YEAR

The “Teacher of the Year” is an award given to a teacher mentor of a student company, for his/hers efforts in promoting entrepreneurial education, expressed passion in working with the students and a clear entrepreneurial attitude. This year teacher **Fanija Naumovska, from SOU Josip Broz Tito from Bitola**, was selected for the “Teacher of the year” award.

JA GLOBAL LEADERSHIP CONFERENCE - BRAZIL

Junior Achievement Macedonia participated in the JA Global Leadership Conference 2025, held in Rio de Janeiro, Brazil. The conference brought together JA representatives from around the world to share experiences and develop innovative approaches to enhance JA programs.

From November 17 to 21, Rio served as a hub of inspiration and international collaboration for the global Junior Achievement community, taking place within the framework of Global Entrepreneurship Week**.**

COMPETITIONS

As part of the JA Programs, students participate in local, regional, national and international competitions, which help develop their skills such as – teamwork, collaboration, presentation skills, adaptability, and resourcefulness, while gaining knowledge in business, green economy, marketing, operations, sustainability and other important topics.

INNOVATION CAMPS

Junior Achievement Innovation Camp is a first-hand experience of how to move from theory to practice. This is a creative exercise where students learn teamwork, how to turn their ideas into action and how to agree on a final concept. Each camp is designed around a specific and real industry or sector and tech related businesses.

Students are asked to come up with solutions to the given problem. Each team is assigned a business mentor, who guides the students through the development of their business idea.

In 2025 JA Macedonia organized 5 innovation camps which brought together 203 students.

I-Innovation camp from 12 to 13 March 2025 in Struga

On 12–13 March 2025, Junior Achievement Macedonia organized a two-day competition that brought together 41 students from six high schools in Bitola, Prilep, Veles, Makedonski Brod, and Ohrid. During the first day, students participated in a workshop on developing a business plan and were introduced to the challenge of creating innovative solutions for managing food surplus and waste in the agri-food sector. Students impressed with solutions such as turning second-class fruit into cosmetic products, reusing coffee grounds for agriculture, processing unused whey from dairies, and digital tools for managing surplus food.

II-Innovation camp in cooperation with Sparkasse bank 19-20 June, 2025 in Struga.

Sparkasse Bank has been supporting Junior Achievement Macedonia camps for innovations since 2020. Our partnership started with organizing innovation camps where 200 participants were challenged on Business concept ideas for high school students coming from more than 50 high schools.

The great experience and cooperation continued in 2025, with organization of innovation camp in Hotel Drim Struga in the period 19-20 June 2025 for 43 students coming from 8 high schools from Skopje, Bitola, Berovo and Kavadarci, 8 business volunteers and 3 jury members were involved in intensive 2 days team work.

The partnership with Sparkasse Bank and relevant activities are in line with JA Macedonia efforts to increase the financial education and educate young people on how to manage their money and make wise financial decisions for the future. This type of events brings more information on the mechanisms for acquiring funds for the development of an idea for a product or service by the JA student companies.

III-Innovation camp 15-16.09.2025 in Berovo

In September 2025, Junior Achievement Macedonia organized a two-day Innovation Camp at OSU “Aco Ruckovski” in Berovo, bringing together 40 students from the only high school in the town, 20 teachers, 5 jury members, 3 JAM staff, and 2 representatives from the Municipality of Berovo. The event followed the signing of a Memorandum of Understanding with the municipality and aimed to provide students from rural and underserved areas with opportunities to develop practical skills, explore innovative ideas, and engage in interactive learning, while also introducing teachers and school management to the programs and opportunities offered by JAM. The Camp combined workshops, team activities, and presentations to foster creativity, critical thinking, and problem-solving among students.

IV-Innovation camp 05-06.11.2025 - Veles

DSU RCSOO “Kole Nedelkovski” in Veles hosted a two-day Innovation Camp organized by Junior Achievement Macedonia, bringing together 40 students, teachers, volunteers, jury members, JAM staff, and alumni. Focused on developing innovative solutions for smart cities, the Camp offered students from underserved communities opportunities to strengthen entrepreneurial thinking, teamwork, and problem-solving skills. Through interactive workshops and mentorship, participants worked on projects to improve urban mobility, sustainability, and local community services. The event also aimed to inspire students to apply their ideas in real-life contexts and encouraged teachers to engage more actively in JAM programs. The Camp concluded with an award ceremony recognizing the top three teams, while all participants received certificates and promotional materials from Junior Achievement Macedonia.

JA Europe -Virtual Innovation camp- Foodathon 2025

Students participating in our programs took part in Foodathon 2025, an international online competition organized by JA Europe, focused on developing innovative solutions for sustainable food systems. From North Macedonia, students from SOU “Josif Josifovski” – Gevgelija, SOU “Bogdanci”, SOU “Tsar Samoil” – Resen, OSU “Aco Ruskovski” – Berovo, SOEU “Jane Sandanski” – Bitola, SUGS “Nikola Karev” – Skopje, SOU “Gjorche Petrov” – Prilep, SOU “Vancho Prke” – Vinica, and SOU “Goce Delchev” – Kumanovo participated.

Two teams – from SUGS “Nikola Karev” – Skopje and SOEU “Jane Sandanski” – Bitola – advanced to the finals, standing out for their innovative approach and strong teamwork.

V-Innovation camp 11-12 December, 2025 in cooperation with "Yunus Centar for Social Businesses"

High school and university students participated in a two-day Innovation Camp organized by Junior Achievement Macedonia in collaboration with the Yunus Center for Social Businesses. The event brought together 20 high school students, 20 university students, teachers, facilitators, JAM staff, alumni, and a professional jury to work on developing innovative products and services aligned with the business of APRIL 22**,** fostering social entrepreneurship, creativity, and practical skills. During the Camp, students collaborated in mixed teams to design solutions that complemented APRIL 22's offerings, applying strategic thinking, market analysis, and creative problem-solving.

NATIONAL STUDENT COMPANY COMPETITION 2025

The National Student Company Competition is the main event dedicated to the hard work of the students and their teacher-mentors, who work throughout the academic year within their JA student companies. This is the place where students present the products and services they have developed to the public and jury.

In 2025, the competition was split into two stages:

- **Regional Student Company Competitions, 09-10 April 2025**
- **National Student Company Competition, 7 May 2025**

Firts place was awarded to **„Playful Pages“** from the secondary school OSU “Jovche Teslichkov” in Veles, whose idea aims to revive forgotten traditional children’s games and bring them closer to today’s generations in an innovative, inclusive, and educational way. “Playful Pages” is the first inclusive picture book in Macedonian language that, through audio, video, and visual support, brings forgotten children’s games back to life.

Second place went to “DoneRight” from the secondary school SOTU “Gjorgji Naumov” in Bitola, whose business idea provides a solution for clients and craftsmen/service providers to connect more easily and exchange services. DoneRight is a web platform that links professionals from various craft and service sectors with clients in the local market.

The third place was awarded to the student company "Trash Wiper" from the secondary school SUGS "Rade Jovchevski-Korchagin" in Skopje, whose product/service involves the application of specially formulated organic fertilizer using autonomous drones that operate directly on landfills, scattered waste, or agricultural fields, aiming to accelerate decomposition and naturally rehabilitate the soil.

BEST ENTREPRENEURIAL SCHOOL OF ACADEMIC YEAR 2024/2025

Fifth year in a row, Junior Achievement Macedonia published a call for nominations for "The best entrepreneurial school" award.

According to the jury's scores, "The best entrepreneurial school" award for 2024/2025, was received by **SEU Jane Sandanski from Bitola.**

EUROPEAN COMPANY OF THE YEAR COMPETITION GEN-E EUROPE LARGEST ENTREPRENEURSHIP FESTIVAL, 01-04 JULY 2025 – Athens, Greece

Gen-E is Europe's largest Entrepreneurship event, a celebration of entrepreneurship and the achievements of European youth. Thousands of European students, from 15 years old onwards, showcased their cutting–edge business ideas online and on-site. The Gen-E Festival also combined two annual European entrepreneurship contests for the winners of the JA Company Program and the JA Start-Up Program from 40 countries.

This year, **Gen-E took place in Athens Greece, from 01st till 04th of July 2025,** gathering over 800 direct participants.

JA Macedonia participated in Gen-e 2024 with student company **"„Playful Pages"** from OSU "Jovche Teslichkov" in Veles **as winner of the National Student Company Competition.**

JA MACEDONIA ALUMNI

Junior Achievement Macedonia Alumni is an initiative of young people who participated in the JAM entrepreneurship programs, and who want to stay active in the JAM network. JAM Alumni club was founded in 2019 as informal group and so far 300 students have participated in its various activities.

JAM Alumni activities are financially supported by Junior Achievement Macedonia. The goal of the club is to bring together young people inspired by entrepreneurial experience in JA program and to enable its members to exchange experiences, increase their knowledge and further develop their skills and competencies.

In 2025 the Alumni Club organized several events:

Inspiring Entrepreneurial Stories for JAM Alumni – 09.12.2025

The event gathered around 30 young participants and aimed to strengthen youth activism and motivate young people to pursue entrepreneurship. Through the inspiring stories of Kristijan Ugrinovski, owner of Gyro House, and Martin Stoimenovski, creator of an award-winning e-waste recycling solution, as well as a presentation by Sparkasse Bank, participants were encouraged to take initiative, explore opportunities, and consider starting their own businesses.

SPIRIT – Junior Achievement Alumni Conference – Cologne, Germany – 27-31 August2025

From 27 to 31 August, Cologne, Germany hosted the JA Alumni Europe Conference – SPIRIT, bringing together young entrepreneurs and alumni from across Europe to connect, learn, and shape their visions for the future. Junior Achievement Macedonia was represented by four of our alumni.

The conference featured inspiring workshops, motivational keynote speeches, valuable networking opportunities, and the exchange of innovative ideas, making the event a truly enriching experience for all participants.

JA MACEDONIA PROJECTS

Erasmus+ project “Virtuelco for All”

Junior Achievement Macedonia is a partner in the Erasmus+ project “Virtuelco for All”, in collaboration with organizations from Serbia (Praskozorje and Ekonomska shkola Pirot) and Bulgaria (Intra Mentis). The “Virtuelco for All” platform aims to improve financial literacy among young people through practical education. Participants manage virtual companies, simulating real business activities, including creating documentation for the purchase and sale of goods and services. Through this interactive approach, young people gain Digital skills and knowledge in budgeting, planning, invoicing, business communication, and financial decision-making. The platform simulates business operations in both domestic and international markets, is based on the existing document flow in our companies, and enables young people to acquire the knowledge and skills needed in the world of work.

In 2025, JA Macedonia organized several promotional events and meetings to engage different target groups. These included a promotion in Veles on 5 November, an event for teachers on 11 November, a session for high school students from various regions of Skopje on 9 December, and an event for university students in Skopje on 12 December. In addition, two meetings with partner organizations were held, on 27–28 September in Pirot and online on 2 June.

Erasmus+ YSBE Net

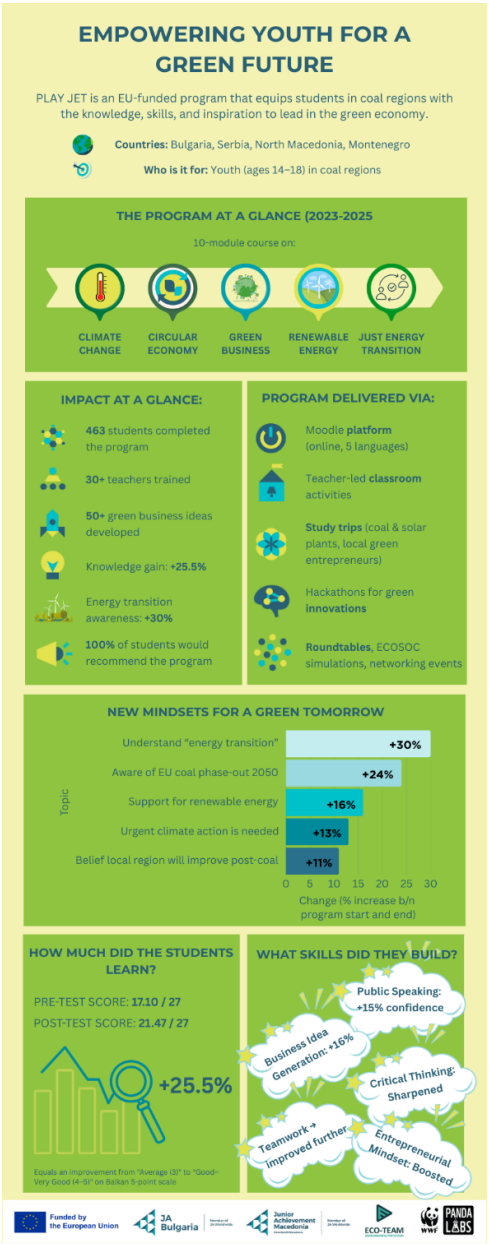

YSBE Net – Youth Social Business Entrepreneurship Network is a transnational project implemented from November 2025 to October 2027, led by JA Romania in partnership with JA organizations from Cyprus, Bulgaria, North Macedonia, Albania, Montenegro, and Merci Charity Boutique, with associated partners from Serbia and Turkey. The project aims to strengthen youth social entrepreneurship by building the capacity of organizations working with young people, addressing gaps in education, training, and institutional support in a context of ongoing social and economic change. Through the development of a structured social entrepreneurship course, training of teachers and youth workers, creation of a digital collaboration platform, international fairs, a virtual hackathon, and strong promotion activities, YSBE Net will create a sustainable learning ecosystem for students, educators, and social entrepreneurs, contributing to youth employment, social inclusion, cross-border cooperation, and long-term social innovation in line with Erasmus+ priorities.

PANDA LABS ACHIEVERS: YOUTH FOR A JUST ENERGY TRANSITION

Panda Labs Achievers: Youth for a Just Energy Transition project is financed by the European Union through Erasmus+ Programme and is implemented by Junior Achievement Bulgaria in partnership with WWF Bulgaria, WWF Adria Serbia, Junior Achievement Macedonia and Eco-Team.

The **main goal of this project** is to increase knowledge about climate change and Just Transition challenges among high school students from coal regions in 4 Eastern European countries (Bulgaria, Serbia, North Macedonia and Montenegro) and encourage their active involvement in policy-making and problem-solving, in order to foster an innovation culture in key Just Transition areas.

The project will promote green entrepreneurship and create sustainable livelihood opportunities in coal regions through an innovative education package, a series of face-to-face hackathons and an online collaboration space. Young people from coal regions will be involved in simulations of economic and social councils and will make their voices heard during roundtables with local government representatives.

PLAY Jet Cross Regional Conference, Pernik, Bulgaria - 16-19 February2025

From 16–19 February 2025, the PLAY JET Regional Conference gathered young people from the region to exchange ideas, collaborate, and build connections. Participants presented their hackathon concepts, worked together to improve each other's projects, and learned about the transition of coal regions through local examples. Cultural exchange activities based on shared traditions further strengthened cooperation and mutual understanding among the participants.

GIRLS GO CIRCULAR

Girls Go Circular

"Girls Go Circular" is implemented in **33 schools** from the JA Macedonia network through the educational platform, and over **1,400 students** had the opportunity to deepen their knowledge of circular economy, while acquiring digital and entrepreneurial skills.

By strengthening the skills of girls aged 14-19 years in Southern and Eastern Europe, the Girls Go Circular project is expected to reduce the digital gender gap and contribute to Action 13 of the Digital Education Action Plan 2021 - 2027 - Encourage the participation of women in STEM (science, technology, engineering and mathematics).

Workshops for students on the topics related to circular economy

During the year, JA Macedonia organized **22 workshops which brought together 550 students** on the topic "Youth in circular economy". The workshops deliver knowledge to the students, to help them understand the concept of circular economy, create their pilot business model and promote the idea of transition to a more sustainable society. It also contributes to developing crucial working skills and essential personal abilities that should facilitate their transition into the labour market. This trainings aim to make their future career choice and employment orientation much easier, in line with their professional predispositions, personal abilities, talents and preferences.

Student Challenge 2025: Cybersecurity & Women and Girls in STEM Forum

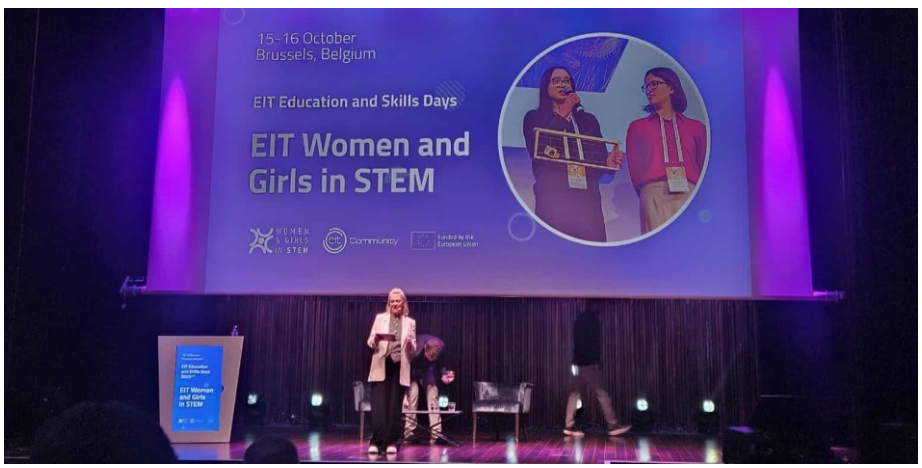

The Forum is organized by the European Institute of Innovation and Technology (EIT), in collaboration with the European Commission, within the framework of the Girls Go Circular initiative. By connecting key stakeholders from education, industry, and policy, the Forum supports the European agenda for gender equality in STEM education and careers.

The Forum brought together students, teachers, industry representatives, policymakers, and researchers, contributing to raising awareness and strengthening skills related to cybersecurity, digital technologies, and future-oriented STEM careers.

The winning team from DSU RCSOO "Kole Nedelkovski" – Veles participated in the Women and Girls in STEM Forum 2025, taking place in October 2025 in Brussels.

This year, Girls Go Circular invited students to explore the topic of cybersecurity and its importance for creating safer digital environments. The Challenge aimed to strengthen students' digital and problem-solving skills, encourage creative thinking, and empower young women to address real-life online safety challenges. A total of **11 teams from North Macedonia** applied to participate.

GREEN YOUTH, GREEN GROWTH

Junior Achievement Macedonia, together with the lead partner Macedonian Enterprise Development Foundation (MEDF) and partner CEP Moznosti, started implementing the project “Green Youth, Green Growth”, funded by the European Union, on March 1, 2024.

The project aims to encourage cooperation between young people, civil society organizations and the media in response to the main topics of the Green Agenda (circular economy, climate change, biodiversity, combating pollution and sustainable food systems and rural areas). Special focus is given to cooperation with key stakeholders in the areas of the Green Agenda. Young people, by participating in the project, will have the opportunity to improve their way of thinking about environmental protection, climate change and improving recycling and waste management within the formal education system. Emphasis will also be placed on promoting the circular economy, and ways to use resources through sustainable ways of production and consumption.

Within the frameworks of the project “Green youth, green growth” an education program on Circular Economy, Environmental Protection, Climate Change and Green Entrepreneurship was developed and delivered. **In total 572 students from 17 high school and 10 cities**, enrolled in the education program. Through this program students are expected to increase their skills in critical thinking, developing green business ideas, and applying sustainable practices in their daily life.

Students had an opportunity to participate on one1 hackathon in March 2025 and one webinar organized in December 2025. On 12–13 March 2025, JAM organized a two-day hackaton that brought together 41 students from six high schools in Bitola, Prilep, Veles, Makedonski Brod, and Ohrid. During the first day, students participated in a workshop on developing a business plan and were introduced to the challenge of creating innovative solutions for managing food surplus and waste in the agri-food sector.

PREPARE YOUTH TO ACHIEVE THEIR GOALS THROUGH PROJECT MANAGEMENT

The initiative aims to connect PMI chapters and JA country offices in Europe through training and initiatives, promoting the project management courses, expanding programs, and enhancing project management for sustainable impact, fostering youth project management proficiency and application in various contexts.

As a results of this project, in 2022 JA Macedonia launched the e-learning platform for Project Management for students and teachers, designed to lead them through the process of project cycle management and to teach them the concepts and skills for managing projects. As support for the teachers and volunteers working with students, JA Macedonia published the Manual for Teachers – Project Management in the Student Company Program in Macedonian language. This manual helps teachers to guide students through the different stages of project management, and how to apply this knowledge along with the entrepreneurial skills, while working on their Student Companies.

So far 45 teachers from 30 schools in N. Macedonia were trained on project cycle management, aiming to reach more than 500 students and teachers by 2027. The students are expected to participate in the Nacional Student Company of the Year Competition, organized by JA Macedonia and the Europe's Largest Entrepreneurship Festival GEN-E.

Strengthen our participation to JA Worldwide OneJA

JAM CEO has participated to more than 10 virtual meetings organized by JA Worldwide network and 2 live BoE meetings organized by Ja Europe, during 2025 with aim to unite and activate the network through knowledge sharing, resource sharing, and communities building. The meetings amplified the collaboration with JA Europe and all 40 JA Europe member countries.

After each meeting in JA Europe network, we try to adapt what was learnt in a network to local community needs through customization and tailor made programs in our country.
